

# Math 241, Spring 2026 — Project assignment 2

Tim Chumley

Due May 8 at 5:00 pm

To wrap up your end of semester project, I'd like you to write a short (1 page) reflection based on the following prompt questions. Answer as many or as few of the questions as you'd like.

**Question 1.** *What did you find most interesting about your topic? What made it interesting to you?*

**Question 2.** *How do you feel the presentation went? Is there anything you were proud of? Is there anything you would change? What would you do differently if you had 30 minutes instead of 15 minutes? How was the collaboration within your group?*

**Question 3.** *Aside from your own group's topic, is there a topic that was most memorable for you? What made it stand out? What questions were you left with about it?*
